SKILLS

DevSecOps	★★★★★
Cloud Security Architecture	★★★★★
CI/CD Pipeline Security	★★★★★
Vulnerability Management	★★★★★
SIEM Solutions (Splunk, QRadar, Elastic SIEM)	★★★★★
Threat Modeling	★★★★★
Infrastructure as Code (IaC) Security	★★★★★
Policy Enforcement (Open Policy Agent - OPA)	★★★★★
Container Security (Docker, Kubernetes)	★★★★★
Cloud Security (AWS, Azure, GCP)	★★★★★
IAM Policies	★★★★★
Network Segmentation	★★★★★
Security Monitoring & Alerting	★★★★★
Compliance Frameworks (SOC 2, PCI DSS, GDPR, NIST, OWASP, CIS Benchmarks)	★★★★★
Automation Scripting (Python, Bash, PowerShell)	★★★★★
Code Analysis Tools (Snyk, Veracode, SonarQube, CodeQL, Checkmarx)	★★★★★
Endpoint Protection Systems	★★★★★
Jenkins	★★★★★
GitLab CI/CD	★★★★★
Azure DevOps	★★★★★
GitHub Actions	★★★★★
Terraform	★★★★★
CloudFormation	★★★★★
Ansible	★★★★★
Chef	★★★★★
Kubernetes Security	★★★★★
AWS EKS	★★★★★
Azure AKS	★★★★★

PROFESSIONAL SUMMARY

Highly accomplished Senior DevSecOps Engineer with 12+ years of experience architecting and implementing robust security into DevOps processes and CI/CD pipelines. Proven expertise in integrating security tools, automating vulnerability management, and securing cloud-native environments (AWS, Azure, GCP) for financial applications. Adept at threat modeling, policy enforcement, and fostering a security-first culture, ensuring secure-by-design principles for scalable and resilient BaaS platforms. AWS and GCP Certified DevOps Professional with a strategic mindset and a bias for action.

EXPERIENCE

Tech Lead

Apr 2025 — Apr 2026

Wipro Limited · Vizag

Led the comprehensive security and compliance management of GCP infrastructure, implementing OS patching via Chef and Terraform, and conducting continuous vulnerability scanning with Signals of Security. Spearheaded the architecture and deployment of secure CI/CD pipelines (GitHub Actions, Jenkins), embedding security gates and automated testing to ensure code, applications, and infrastructure met stringent security standards before deployment. Oversaw secure multi-cloud migrations (AWS, GCP, Azure) using rehost/retain strategies, leveraging automated provisioning with Terraform and Chef, ensuring seamless transitions and enhanced resource utilization. Championed DevSecOps adoption by implementing and managing security tools such as SonarQube, CodeQL, and Aqua, significantly enhancing application security posture and reducing critical vulnerabilities. Orchestrated the deployment of containerized applications (Docker, GKE, Helm, ArgoCD) with robust monitoring and incident management, ensuring high availability and rapid response to security threats. Developed and deployed ML/AI applications on AWS SageMaker, utilizing MLflow for experiment tracking, and built secure APIs with FastAPI and interactive dashboards with Streamlit, enabling scalable and production-ready ML workflows with a focus on data security and integrity.

Assistant Manager (DevOps)

Mar 2024 — Jul 2025

Genpact India Private Limited · Hyderabad, Telangana

Managed and executed cloud migration initiatives using AWS MGN and VM Import/Export for secure and efficient lift-and-shift of on-prem VMs to AWS with minimal downtime, ensuring data integrity and compliance. Built and enhanced secure CI/CD pipelines (GitHub Actions, Jenkins) to automate migration workflows and application deployments, integrating security scanning tools to identify and remediate vulnerabilities early. Containerized and deployed critical applications on Kubernetes (EKS/GKE) using Docker, Helm, and ArgoCD, implementing security best practices for container orchestration and runtime protection. Optimized big data workloads on EMR with a focus on secure data handling and access controls, ensuring scalability and cost efficiency while adhering to compliance requirements.

CERTIFICATIONS

AWS Certified DevOps Engineer - Professional
Professional Cloud DevOps Engineer
Certification
Generative AI Leader
AWS Certified Developer - Associate

Sr Software Engineer

Dec 2021 — Feb 2024

Enqeuro Global LLP Genpact company · Koramangala, Bangalore

Architected and managed a microservices-based platform on AWS, focusing on secure infrastructure and application deployments. Provisioned and managed AWS resources using Infrastructure as Code (Terraform), incorporating security best practices and compliance checks. Supported secure application integrations using Mulesoft Anypoint Platform. Automated operational tasks and scripting using Python to improve efficiency and enforce security policies. Designed and implemented secure CI/CD pipelines using Git, GitHub, TeamCity, and Octopus Deploy, enabling automated build, code quality checks with SonarQube, and streamlined application deployments with security gates. Managed version control, branching strategies, and release workflows across environments with a strong emphasis on security and auditability. Monitored applications and system performance using New Relic, and provided production support by resolving deployment failures and infrastructure issues, ensuring system reliability and security. This implementation improved deployment efficiency, code quality, and overall system reliability and security posture.

AWS DevOps Engineer

Feb 2018 — Dec 2021

Zevjet Technologies Infotech Pvt Ltd · Madhapur, Hyderabad

Built and managed secure CI/CD workflows using GitHub Actions (CI) and Jenkins (CD) on AWS, enabling automated build, testing, and deployment processes with integrated security scanning. Integrated code quality and security tools (CodeQL, Aqua) to ensure secure and compliant code deployments, significantly reducing the attack surface. Led GitHub repository migrations across GitHub Enterprise and GitHub Cloud, ensuring secure transitions with proper access controls and configuration consistency. Developed Python-based automation to support migration activities, including configuration validation and data handling, with a focus on security and integrity. Managed application deployments on AWS and provided ongoing production support, resolving pipeline failures, deployment issues, and infrastructure challenges, ensuring smooth migration and operational stability with a strong security focus.

Technical Support Engineer

Jun 2016 — Nov 2017

PKL Limited · Hyderabad, Telangana

Provisioned and managed Azure resources including Virtual Machines, Storage Accounts, Virtual Networks, and Load Balancers, implementing security groups and network segmentation for enhanced protection. Built and enhanced secure CI/CD pipelines using Azure DevOps (Repos, Pipelines, Releases) to automate build and deployment workflows, integrating security checks. Containerized applications using Docker and deployed on Kubernetes (AKS), implementing scaling, rollout strategies, and GitOps-based deployments using ArgoCD and Helm, with a focus on securing the containerized environment.

Software Developer

Jan 2014 — Jan 2016

Kaivale Technologies · Bangalore, Karnataka (C2H)

Built and managed secure AWS infrastructure, implementing robust IAM policies and secure networking (VPC, ACLs) to protect resources. Developed secure CI/CD pipelines (Jenkins, Maven, Nexus, Ansible) and migrated build systems from ANT to Maven. Automated infrastructure provisioning using Chef and scripting, improving environment setup speed and consistency. Implemented code quality practices using SonarQube and scaled CI processes across teams, emphasizing secure coding standards. Supported application deployments and platform stability through cross-team collaboration, ensuring secure and reliable releases.

EDUCATION

B.Tech in Mechanical Engineering

— Jan 2013

Shri Vishnu Engineering College For Women (Autonomous)

Intermediate

— Jan 2008

Viznana Jyothi jr College

S.S.C

— Jan 2004

ZPH School

ACHIEVEMENTS

T2o Award — Recognition for outstanding contributions and performance in driving technological advancements.

Second place in Heckerthon — Demonstrates exceptional teamwork, advanced problem-solving skills, and innovation in a competitive security-focused coding environment.
